

## LICENSED/NON-LICENSED SUPPORTED LIVING

Waban administers licensed homes in the Sanford area that house three to five adults with developmental disabilities. The purpose of these homes is to teach and/or promote independent living in a community setting and to provide the residents with accessibility to various work sites in the community or at Life Works. In the evenings they work on cooking, cleaning and personal hygiene skills with support staff as needed, as well as participating in community activities and outings.

Waban provides a variety of supported living settings for individuals who are able to live more independently in the community. Consumers reside in their own apartments and homes, with support staff as needed.

Each residential setting provides independently tailored habilitation programs which will enhance each consumer's ability to integrate into the community and increase their independent living skills.

## INDEPENDENT SUPPORT SERVICES

The Independent Support Service (ISS) program provides support to individuals who wish to live by themselves or with roommates in their own apartments in the community. These individuals have worked hard at becoming as independent as possible, but still require some staff support. Most of the staff support needed is home based, and assistance may be provided in the following areas:

- Finances
- Budgeting
- Paying bills
- Writing checks
- Balancing checkbook
- Shopping for personal and household items
- Coordination of medical care/services
- Community integration
- Self-advocacy

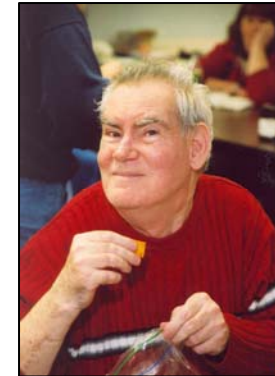

The building of natural supports is intricate components of this program.

## RESIDENTIAL WAIVER HOMES

Each of these homes serves four to five residents who have multiple disabilities. Each resident has his or her own bedroom and participates in day activities that meet their personal needs. Community outings are an important part of their programs. Each home has a nurse consultant.

The Morrells Mill Home is designed for older adults who desire a more relaxed lifestyle.

## MISSION

Waban Projects, Inc. is a non-profit corporation organized to develop and operate programs, which promote the general welfare and education of children and adults with developmental disabilities.

## PHILOSOPHY

Waban Projects, Inc., a community based agency, believes in the principles of normalization, integration and self-empowerment in the least restrictive environment. All programs, residential and day, operate utilizing those principles.
